SUMMARY

Senior Computer Science student (Cybersecurity, 3.86 GPA) and published security researcher. Hands-on across detection, penetration testing, secure development, and GRC — from SOC pipelines to OWASP-hardened apps.

EDUCATION

Effat University — Jeddah, Saudi Arabia — Expected 2027
B.S. in Computer Science — Concentration in Cybersecurity · GPA: 3.86 / 4.0

CERTIFICATIONS

- **Google Cybersecurity Professional Certificate** — Google (2026)
- **Intrusion Detection Specialization** — Johns Hopkins University (2026)
- **Computer Forensics Specialization** — Infosec (2026)

TECHNICAL SKILLS

Security: Threat Detection, IDS/IPS, Network Security, Vulnerability Assessment, Digital Forensics, Incident Response, Penetration Testing (OWASP Top 10), MITRE ATT&CK, Purple Teaming, ICS/OT & PLC Security
ML / Detection: Anomaly Detection, Isolation Forest, Random Forest, Network Traffic Analysis, Feature Engineering, scikit-learn, Pandas, NumPy, Jupyter Notebooks
GRC (Governance, Risk & Compliance): NIST (CSF, 800-30/61), ISO/IEC 27001 & 27005, GDPR, Saudi PDPL, Risk Assessment
Tools: Kali Linux, Nmap, Wireshark, tcpdump, Scapy, sqlmap, Hashcat, Autopsy, Docker, Cisco Packet Tracer, CISO Assistant
Programming: C++, Python, Java, JavaScript, SQL, Bash/Shell scripting
Systems & Networking: Linux, Windows, TCP/IP, Routing, DHCP, DNS, Subnetting, WPA2

PROJECTS

Purple-Team Lateral Movement Detection Platform — Senior Capstone · Jan 2026 – Present
- Dockerized red/blue cyber range (13 hosts, 3 segmented subnets, inline IDS) that executes and detects lateral movement end-to-end, with adversary emulation across 20 MITRE ATT&CK techniques.
- Real-time behavioral + signature IDS feeding a SOC triage dashboard (RBAC, alert assignment, MTTR); GRC module maps live telemetry to NIST CSF / ISO 27001 / NCA ECC under just-in-time least privilege · github.com/soukhnatali05/lateral-movement-detection-lab

NoorPay GRC Consulting Assessment — Team Project · Apr 2026
- GRC engagement for a simulated Saudi fintech: 10-risk register, GDPR/PDPL gap analysis, and incident-response plan.
  Tools: NIST 800-30/61, ISO 27005, GDPR, PDPL, CISO Assistant · github.com/soukhnatali05/noorpay-grc-assessment

Web Application Penetration Test — SQLi & XSS — Team Project · Apr 2026
- SQL injection (sqlmap) and reflected/stored XSS, with code-level remediation: parameterized queries and CSP.
  Tools: Kali Linux, sqlmap, Docker, OWASP Top 10 · github.com/soukhnatali05/web-app-pentest

Glovia — Skincare Web App (Full-Stack + Security) — Team Project · May 2025
- Full-stack PHP/MySQL app (user accounts, admin panel, skin-type quiz) security-hardened to the OWASP Top 10 — fixed CSRF, session fixation, XSS and file-upload flaws, verified with Semgrep and 18 automated attack tests.
  Tools: PHP, MySQL, JavaScript, Bootstrap, Semgrep · github.com/soukhnatali05/glovia

LEADERSHIP & VOLUNTEERING

Club Leader — University Swim Club, Effat University — Sep 2023 – Dec 2024
- Led the club for 1.5 years — organized events, coordinated members, and grew participation.

Registration & Volunteer Coordinator — L&T Conference, Effat University — Jan 2025 & 2026
- Ran registration and check-in, coordinated the volunteer team, prepared certificates, and handled on-site IT support.

Volunteer — IT Support & Events — Admissions, IADC Hackathon, IEEE Day (SPE), Effat University — Sept, Oct 2026
- IT support for new students; event registration, coordination, and the SPE booth. Member: CyberHub, SPE.

HONORS & AWARDS

- Dean's List — Effat University (2023–24, 2024–25, 2025–26) · Nominee, Queen Effat Citizenship Award (2024 & 2025)
